ARTS EDUCATION PROGRAM

The SPARK Arts Education Program at Horsham Town Hall is a low-cost, curriculum-aligned initiative for schools that offers performances, gallery exhibitions, and hands-on workshops in visual arts, drama, music, literature, and more.

It explores themes like environment and sustainability, gender and society, resilience and social connection, and First Nations culture.

Designed in partnership with the Horsham Regional Art Gallery and funded by the Department of Education, SPARK supports teaching with tailored educational resources and provides experiences both in the gallery and in schools.
